A member of the  Group of Companies

GROUP STRUCTURE

Several companies make up the PRD Lonestar Group of Companies which now has an annual turnover of circa \$150 million. The group's main markets of oil, gas and power generation and construction are global industries. Customers are often multinational operations with manufacturing, spares and service centers throughout the world. Driven by the market's need to reduce costs whilst maintaining quality levels, PRD Lonestar Group of Companies are becoming increasingly involved with contract supply agreements which require consignment stocks, in-plant personnel and e-commerce systems offering the complete fastener and sealing supply management solution.

Triplefast Middle East Limited was established in 2002 to act as the manufacturing, stockholding and sales center in the Middle East for the Group's extensive range of bolting, gaskets and associated products. Based in Oilfield Supply Center in the Jebel Ali Free Zone, Dubai, U. A. E., Triplefast Middle East occupies 13,750 sq. m. of warehouse and offices at two locations offers a unique service of specialist manufacturing and a stock inventory of over £10 million of petrochemical, power generation, gaskets and construction bolting and hardware.

PRD Fasteners Limited, incorporated in March 1984, now employs approximately 130 people manufacturing special and non-standard, high integrity safety and quality critical fasteners and components by Hot Forging, Bar Turning and state of the art CNC machining. It supplies the oil, gas, petrochemical, power generation and heavy engineering industries with products offering full certification and traceability.

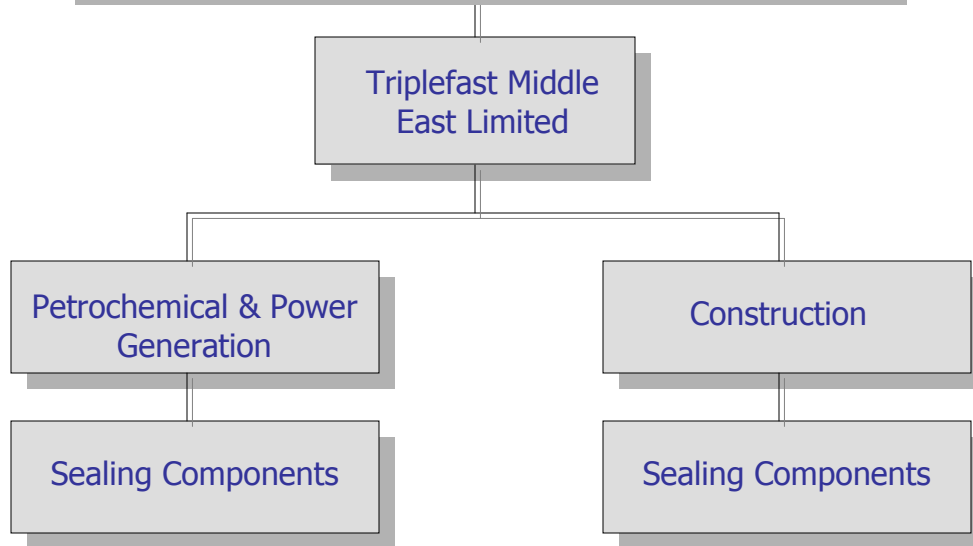

Eurofast Petrochemical Supplies Limited, established October 1985, employs approximately 90 people and is probably the largest stockholder and manufacturer of fully traceable petrochemical grade Studs, Studbolts, Threaded Bar, Hexagon Head Bolts/Screws, Socket Screws and "U" bolts in the UK. Supplying offshore, oil, gas and petrochemical operators, refineries, process plant manufacturers and supply companies.

Triplefast International Limited was established in 1991 to market and sell on a world-wide basis the products of the group companies. It consolidates supply packagers and acts as the stock point for overseas contract supply customers. It currently employs 24 people and has a customer base on over 90 countries, with an annual turnover in excess of \$15 million. Its purpose is to act as a focal point for export sales enquiries, order consolidation and centralizes the required export and language skills for freight, documentation, payment, etc.

Lone Star LWD Precision Engineering, established in 1942 has become a leading provider of precision engineered components and specialized surface coating to the oil, gas and petrochemical industries throughout the world

Lone Star Grange, in 2006 Lone Star acquired Grange gaskets and Grange Precision Engineering, based in Leeds, England. Since 1948, Grange has been one of the United Kingdoms premier specialty gasket companies, specializing in Heat Exchanger Gaskets of all types and configurations. It is world renowned for it's specialty Clad Gasket capabilities and quick service on Spiral Wound Gaskets.

LONESTAR PRD GROUP OF COMPANIES

Dubai based Middle East manufacturing and supply centre with responsibility for sales to the petrochemical, construction and sealing technology and heavy engineering industries in the following countries

Country / Sales Area

Responsible for sales, marketing, stockholding and manufacturing of all Lone Star Group Products in the MENA, Levant, Caspian And Asian Sub continent

STOCKHOLDING

A full range of petrochemical and construction grade bolting products is held in stock including: studbolts, hex nuts, threaded bar and socket screws plus semi-finished products for speedy conversion to non-stock sizes and special requirements.

Heat Exchanger Gaskets of all types and configurations are manufactured on site and a wide range of Spiral Wound Gaskets to ANSI/ASME B16.20, Ring Type Joint Gaskets in Soft Iron, 304 and 316 Stainless Steel are manufactured or stocked to both API and ANSI B16.20 standards and various thickness of Gasket Sheet materials which can be cut for special requirements.

Triplefast Middle East offers a complete supply package, drawing over \$10 million of Group stock inventory and its specialist manufacturing centers in the U.K. to produce non-standard sizes and machined components in all materials including: Duplex, Super Duplex, Cupro-nickel and exotic alloys.

All products are available with a full range of plated finishes including zinc, nickel, hot dip galvanized, cadmium and PTFE from its own in-house coating plant.
